COSMÉTICA PORTUGAL SA

We materialize  
your ideas.

---

Specialists in solid cosmetics since 2003, we are focused on sustainable innovation and developing solutions for the hygiene and personal care market.

Maria Lobo Maia

General Manager Groupe GM Cosmética Portugal

# Certified industry.

---

## GOOD MANUFACTURING PRACTICES

---

As solid cosmetics manufacturers, we are able to meet the requirements of **ISO 22716**, which covers all aspects of the supply chain involved in manufacturing, packaging, testing, storage, and transportation of the final cosmetic product.

We also operate within the scope of Quality and Environmental Management Standards **ISO 9001** and **14001**.

**Intertek**

**Intertek**

# Sustainable supply chain.

---

## SUSTAINABLE PALM OIL

---

As an industry that uses palm oil or derivatives in its processes, we consider it essential to obtain the RSPO (Roundtable Sustainable Palm Oil) certification, thus ensuring the sustainability of the entire supply chain, from an environmental, economic and social point of view.

We recognize RSPO certification as the leading global sustainability standard for palm oil products, supporting all efforts in developing mechanisms to distinguish sustainable products.
