## **QUALITY AND ENVIRONMENT MANAGEMENT POLICY**

### **Product Quality**

GGMCP implements and maintains an adequate GMP system by complying with the ISO 22716 standard, which defines good manufacturing practices applicable to the production, control, storage, and shipment of cosmetic products. In this way, it demonstrates its commitment to protecting the quality and safety of its customers/stakeholders and other interested parties (IP).

### **Stakeholder satisfaction**

It is based on the aforementioned principles that GGMCP has earned the trust of its customers and has successfully overcome the successive challenges it faces, with the high satisfaction of its customers and suppliers reflecting this success.

It is also on these principles that the company continues to operate, remaining dynamic, capable of adapting to new circumstances in a timely manner, and meeting the needs of its various stakeholders.

### **Respect for Health and Safety at Work**

Given the constant concern for the safety of everyone working in the company, it promotes and encourages a prevention and safety system based on the following principles:

- ! Providing safe and healthy working conditions
- ! Preventing work-related injuries and health issues
- ! Eliminating hazards and reducing risks (safety)
- ! Commitment to consulting and involving all workers in these efforts
